

a land of opportunity

THE LYON TECHNOLOGY PARK

a land of fusion

accessibility

Designing a place for professional success in an exceptional setting; a showcase for technology in Eastern Lyon: this is what the Lyon Technology Park has succeeded in doing.

respect for the environment

quality of life

architectural innovation

**Prize for local public corporations 2008 for economic development for the Lyon Green Technology Park in Saint Priest.*

THE LYON TECHNOLOGY PARK

a land of abundance

250,000 sq. meters net
floor area of real estate
programs

140 ha developed

6,400 people (in the long term)

*Technological companies and cutting-edge
industries coexist at the Park, bearing witness
to the economic success of the site.*

The Lyon Technology Park is differentiated through its large surface area and its pulling power. In just over 10 years, it has become a remarkable center on the scale of the metropolis as a whole.

THE LYON TECHNOLOGY PARK

a land of ambition

4 sectors of activity:

the environment,

biotech/health,

services,

industrial engineering

...

THE LYON TECHNOLOGY PARK

a land of equilibrium

50% green areas

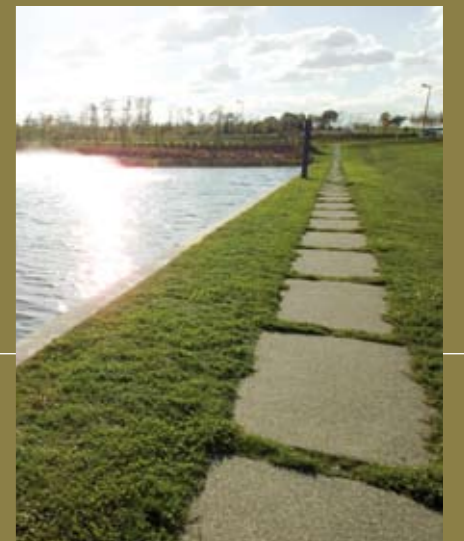

4 ha of water-filled basins

60 ha of assignable land

20 ha of forest

*Rainwater treatment basin,
constitution of a forest, creation of
a positive-energy office building...
at the Park, sustainable development
is already real.*

By setting the three-pronged objective of protecting the environment, achieving harmony between different elements and using renewable energy solutions, the Park has become a leader in sustainable development.

THE LYON TECHNOLOGY PARK

a land for people

Buffet-style
food service

Medical/social center

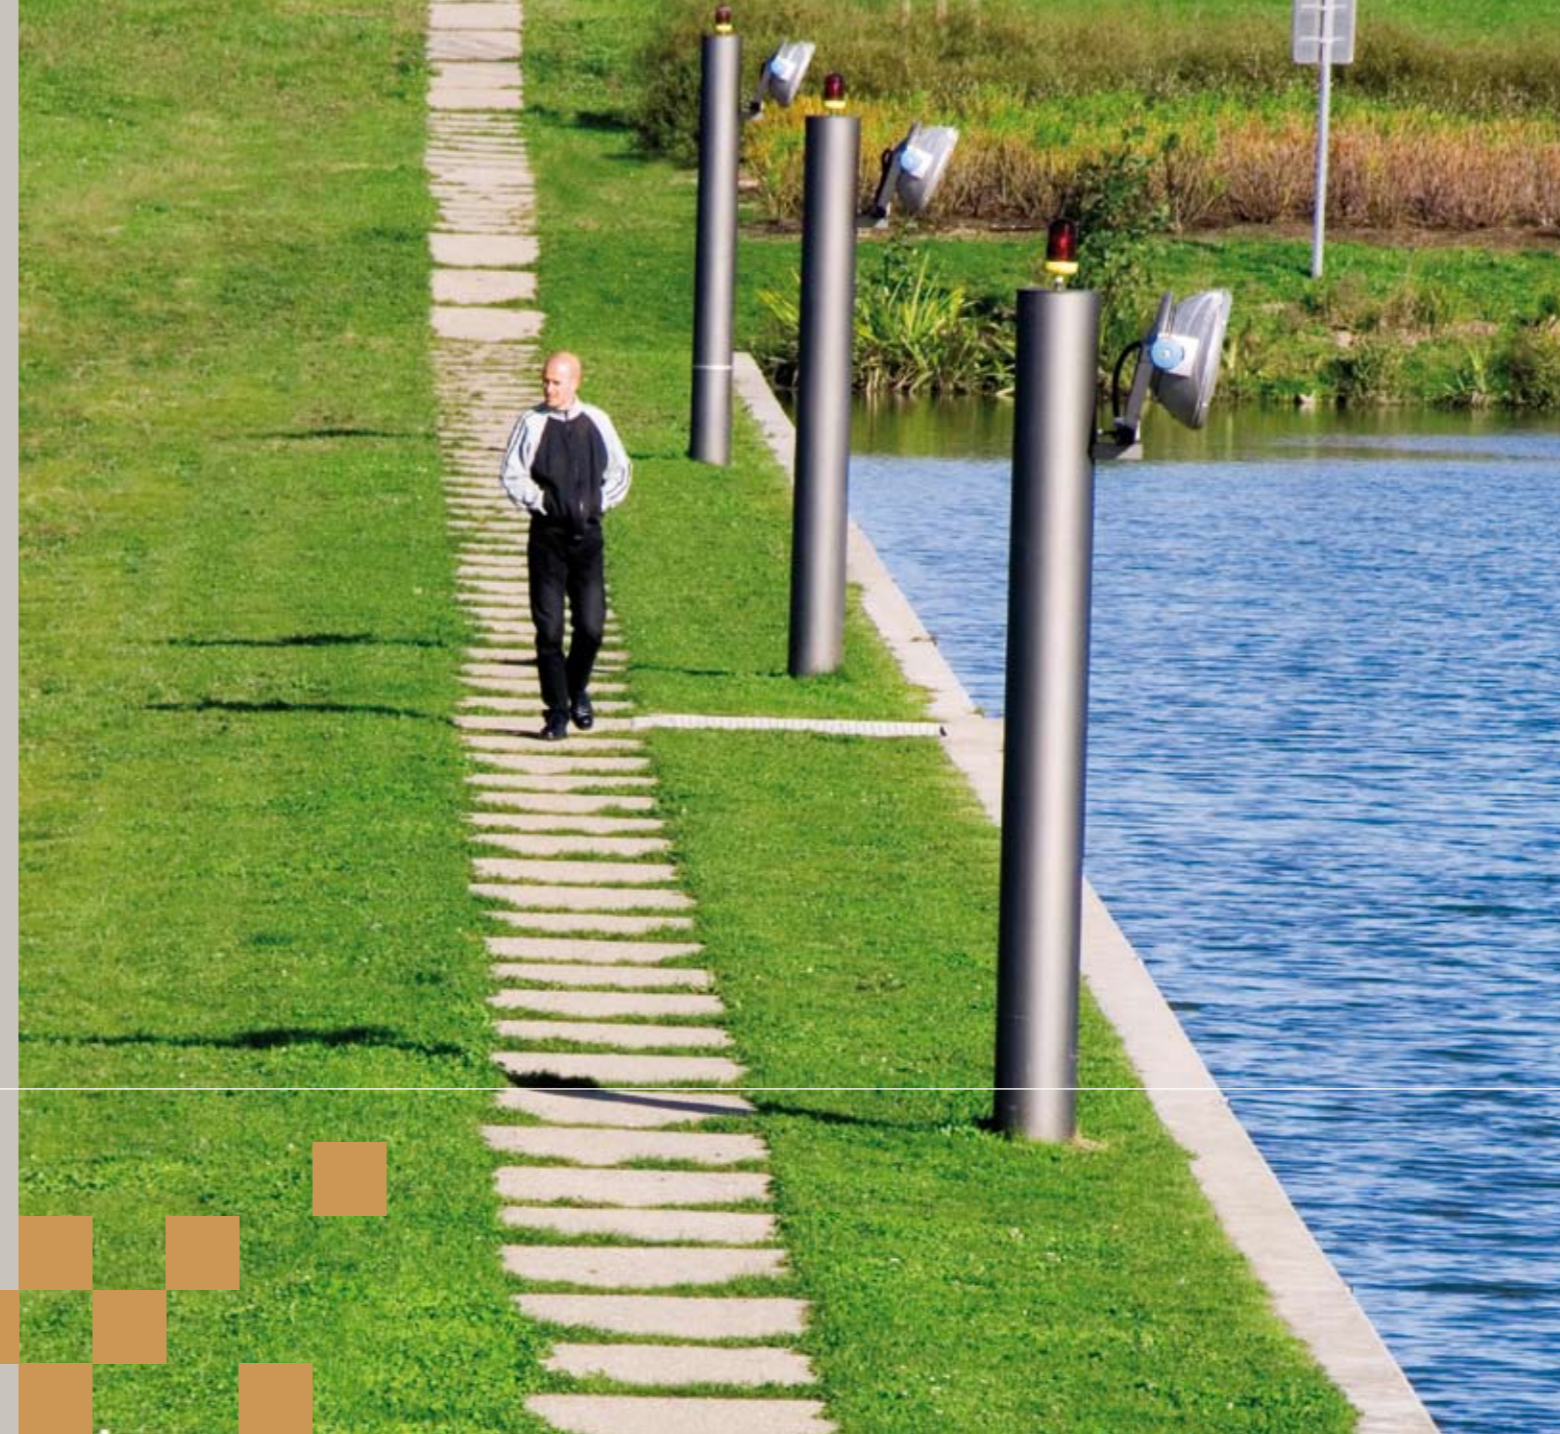

Childcare centers

Business centers

Tavern, Hotel

Thanks to a well-preserved environment, very easy access and especially the services that have been developing at the site over the years, the Lyon Technology Park has become a pleasant, attractive living environment for employees. Everything here has been designed for the wellbeing of the occupants, in their everyday life.

The childcare center at the Park is the latest evidence of a clear-cut strategy to create a place that achieves economic and social harmony.
